July 31, 2018

Dear Daniel,

Corvallis Parks & Recreation thanks you and the mechanical engineering students for all of your help at Chip Ross Natural Area on April 27, 2018! For the new trail on Chip Ross' north face, we carried out trail step construction along the steeper grades of the path – as is shown with the enclosed images.

As in the previous year, I enjoyed working and interacting with everyone from the engineering school and I look forward to the opportunity of partnering again with you in a future service event.

Thank you!

A handwritten signature in black ink, appearing to read "Stephen McGettigan", with a long horizontal line extending to the right.
